Details:

About Us: At Tech Electrical Overhead Crane, we specialize in the installation, maintenance, and repair of lifting and hoisting equipment across Vancouver Island. With a focus on safety, reliability, and quality service, we serve a wide range of

industrial clients throughout the region. We are currently seeking a skilled and motivated Overhead Crane Technician to join our growing team. Position Summary: As an Overhead Crane Technician, you'll be responsible for installing, inspecting, maintaining, and repairing overhead cranes, hoists, and related lifting equipment. This is a field-based position, involving travel to client sites across Vancouver Island. Key Responsibilities:

- Perform scheduled inspections and preventive maintenance on overhead cranes and hoists.
- Troubleshoot electrical, mechanical, and structural components of lifting systems.
- Complete installations of new crane systems or upgrades to existing equipment.
- Respond to emergency service calls and perform repairs efficiently and safely.
- Prepare service reports, safety documentation, and job completion records.
- Ensure compliance with all applicable CSA/ASME standards and provincial regulations.
- Maintain a safe and clean work environment on client sites.

What We Offer:

- Competitive wage based on experience and qualifications.
- Company vehicle
- Paid travel time and daily per diem (if applicable).
- Ongoing training and certification support.
- Opportunities for growth within a supportive team environment.

Qualifications & Experience:

Qualifications:

Minimum 2–3 years' experience servicing overhead cranes or similar industrial equipment.

- Electrical or Mechanical trade certification preferred (e.g. Red Seal Millwright or Electrician).
- Valid driver's license and clean driving record.
- Strong knowledge of electrical systems, VFDs, and PLCs is an asset.
- Comfortable working at heights and using fall protection.
- Excellent problem-solving skills and customer service orientation.
- Ability to work independently and manage time effectively.
