Details:

About Us: We are a locally-owned lawn and garden maintenance company that has proudly served the Campbell River area for over 28 years. Our reputation for consistently delivering top-tier services has earned us the trust of the community, and we continue to experience steady growth in both our clientele and service offerings. We're currently looking for an experienced horticulturist to join our team and lead a dedicated crew in maintaining gorgeous landscapes. If you're passionate about gardening, thrive in a dynamic environment, and enjoy bringing creative solutions to life, this is the opportunity for you!

Benefits:

- \$40/hr contract rate
- Consistent weekly hours averaging between 25-40 hours
- Small crew leadership
- Diverse projects with room for creativity
- Opportunity to grow with the company

Job Description: Horticulturists/Lead Gardener is responsible for overseeing day-to-day garden maintenance and installation work while leading a small crew on residential and commercial properties. This role combines horticultural knowledge with hands-on work, leadership and client interaction. The Lead Gardener ensures work is completed to a high standard, on schedule and in line with company values and safety practices. This job is looking for a sub contractor

Duties:

- Lead and work alongside a gardening crew on daily job sites
- Perform hands-on garden maintenance including weeding, pruning, planting, mulching, and hedge trimming
- Ensure proper horticultural practices are followed (plant care, pruning techniques, seasonal timing)
- Assign tasks, set the pace for the crew and
- Perform hands-on garden maintenance including weeding, pruning, planting, mulching and hedge trimming
- Ensure proper horticultural practices are followed (plant care, pruning techniques, seasonal timing)
- Assign tasks, set the pace for the crew and maintain productivity
- Conduct quality control and final walk-throughs of completed work
- Communicate professionally with clients regarding scope of work, site conditions and recommendations
- Identify plant health issues, maintenance needs or improvement opportunities
- Ensure tools, equipment and job sites are kept clean, safe and organized
- Train, support and mentor junior gardeners
- Follow and enforce company safety standards and procedures

If you think you've got the right attitude and the skills required for this

role, we encourage you to apply. Join us in creating beautiful outdoor spaces for our clients!
