Details:

Sealand Aviation Ltd. is a well-established and forward-thinking aircraft maintenance, repair, and modification organization based in beautiful Campbell River, British Columbia. With operations at both the Campbell River Airport and our dedicated floatplane facility at Tye Spit, we provide maintenance support our customers throughout Vancouver Island and beyond. We are seeking an experienced AME-M1 to join our growing team. The ideal candidate will have experience working on DHC-2 Beaver, DHC-3 Otter, and a variety of single-engine and light twin aircraft. Turbine and turboprop experience would be considered a strong asset. This is a full-time, Monday-to-Friday position based in Campbell River, offering the opportunity to work on a diverse range of aircraft while enjoying an exceptional West Coast lifestyle. If you are looking for a supportive team environment, challenging and rewarding work, and the chance to be part of a company known for innovation and craftsmanship in aviation, we would love to hear from you.

Qualifications & Experience:

AME-M1 with experience on DHC-2, DHC-3, various single and light twin aircraft. - AME "M" license required - Perform work in accordance with the Maintenance Policy Manual (MPM) and Transport Canada regulatory standards - Turbo prop and asset - The ability to communicate efficiently, and to record and interpret technical information - Efficient and knowledgeable in paper work processes - Moderate computer skills sufficient to work with internet and computer based manuals -

Maintain a clean, safe, and organized work environment
