Note: By applying for this position, you acknowledge your commitment to adhering to all WorkSafeBC regulations and the HDL/NTL Safe Work Procedures.

Expiry Date:

Monday, July 20, 2026

Details:

Hooktender - Newcastle Timber (Sayward, BC) We're looking for an experienced Hooktender to lead a rigging crew at our Northern Vancouver Island operations. This isn't a job for someone looking to learn the ropes—we need someone with solid experience who knows how to lay out a high-lead side, move the block, and keep wood hitting the landing safely. At Newcastle, we're a tight-knit crew. We keep our gear in good shape, and we don't cut corners on safety. Location: Sayward, BC (Northern Vancouver Island) Pay: \$46.93 per hour Schedule: Monday - Friday The Day-to-Day You'll be the "quarterback" of the side. Your main focus is production and safety. You'll be:

- Planning and supervising the rigging of high-lead and grapple systems.
- Managing the crew (Chokermen/Rigging Slingers) to keep the flow moving.
- Handling the heavy lifting—dismantling, moving, and resetting equipment in typical North Island terrain.
- Working closely with the Yarder Operator to ensure turns are clean and efficient.

What's In It For You?

- Top-Tier Union Package: \$46.93 /hour plus a comprehensive union pension and benefits.
- Full Protection: Short-term and long-term disability, life insurance, and accidental death coverage.
- Financial Security: Union pension plan, Life Insurance, and Short-Term Disability.
- Health & Wellness: Extended health, dental, vision, and an Employee Family Assistance Program (EFAP) to support you and your family.
- Professional Environment: Work for a respected, SAFE Certified company that invests in its equipment and its people.
- Great Schedule: Monday to Friday. No camp life—stay local and get home every night.
- Career Growth: We take pride in training our crew. This is a great place to develop your skills in the logging

industry.

Qualifications & Experience:

What We're Looking For: •Proven Experience: You've spent at least a year (ideally more) as a Hooktender. You know the difference between a good road and a bad one. •Lead by Example: You're someone the crew respects because you work as hard as they do. •Physical Grit: This is rugged coastal ground. You need to be fit enough to handle the brush and the steel. •Reliability: You live in or can reliably commute to the Sayward Valley. •Communication: Clear, professional radio skills and leadership ability. •Paperwork: A valid Driver's License and a clean Driver's Abstract. •Safety Mindset: SAFE Certification standards are our baseline. Intermediate or Advanced First Aid is an asset.
