Details:

Hiring for multiple positions with flexibility for both skilled and unskilled applicants. Join our dynamic team as a Cabinet Maker/Installer and bring craftsmanship to life through precise woodworking, custom cabinetry, and seamless installation. This energetic role offers the opportunity to work on diverse projects, from residential renovations to commercial builds, ensuring every detail meets high standards of quality and durability. If you thrive in a fast-paced environment and take pride in transforming spaces with your skilled hands, this position is perfect for you! We are committed to fostering a positive work environment where your expertise makes a tangible difference.

Responsibilities

- Read and interpret detailed blueprints, schematics, and technical drawings to accurately construct and install cabinetry and related fixtures.
- Measure, cut, assemble, and finish wood components using hand tools, power tools, CNC machinery, and woodworking techniques.
- Install cabinets, countertops, shelving, and custom woodwork in various settings with precision and attention to detail.
- Perform concrete forming, masonry work, flooring installation, tile laying, siding, roofing, and rebar installation as needed for project completion.
- Conduct restoration projects including cabinetry repair and refurbishment to restore functionality and aesthetic appeal.
- Apply construction painting and caulking to ensure finished work is protected from environmental elements.
- Collaborate with project managers to estimate materials and labor needs accurately while adhering to safety protocols at all times.

Join us to craft exceptional spaces through your craftsmanship—where your skills are valued and every project presents an opportunity to excel! Pay: \$19.00-\$30.00 per hour
Benefits: On-site parking Work Location: In person

Qualifications & Experience:

Experience

- Proven construction experience with a focus on carpentry, woodworking, or cabinetry installation.
- Skilled in blueprint reading, schematics

interpretation, and construction estimating processes. • Hands-on experience with hand tools, power tools, CNC machinery, and heavy lifting techniques. • Knowledge of plumbing, electrical systems, HVAC components (if applicable), and general handyman skills enhances versatility. • Familiarity with concrete forming, masonry work including rebar installation, flooring installation, tile laying, siding application, roofing techniques, and restoration projects is highly desirable. • Prior experience working in manufacturing or industrial settings involving cabinetry or wood product fabrication is advantageous.
