WHO WE ARE: From a humble beginning in 1988 with six nurseries, PRT has grown into North America's largest grower of forest seedlings, having grown over 6 billion trees. With 27 Nurseries & 14 Seed Orchards across the US and Canada, we annually cultivate over 630 million high-quality seedlings, playing a vital role in reforestation and sustainable forestry. We're driven by a passion for environmental stewardship and a commitment to nurturing relationships, driving excellence, and fostering a people-first mindset, all to make a difference for a greener future. Here's what you can expect when you join PRT

- Competitive Compensation & Financial Growth: Earn a competitive hourly rate with the opportunity to earn piece rates.
- Career Development & Learning: Grow your skills and advance your career with personalized guidance and a learning-focused culture that prioritizes continuous development.
- Stable, Inclusive & Collaborative Environment: Join a year-round stable company where your voice matters in a collaborative and inclusive work environment.
- Make a Difference for the Planet: Contribute to environmental sustainability and a passion for nature solutions

FOREST NURSERY WORKER, LIFT We are currently seeking to fill an existing vacancy on our team. PRT Campbell River is looking for seasonal Forest Nursery Workers to help with our upcoming tree seedling harvest. If you want a physical, fast-paced outdoor job that makes a positive environmental impact, this is for you! You'll be lifting tree seedlings for reforestation across North America. No experience is needed – we'll provide full training. Your Role & What You'll Do You'll work as part of a supportive team, under the guidance of a Nursery Lead and Manager. Your main duties will involve:

- Lifting and moving tree seedlings outdoors.
- Learning about forest nursery activities.
- Working independently and efficiently.
- Committing to quality and safety in a safe work environment.

Qualifications & Experience:

•Reliable transportation and appropriate work attire. •Good manual dexterity and eyesight. •Ability to stand for long periods and perform repetitive tasks. •Ability to lift and carry up to 50lbs. •A team-oriented personality with a positive attitude. •A desire to learn and contribute to forest regeneration.
