Title: Production Technician Reports To: Production Manager Salary: $26 to $28 Hourly Poseidon Ocean Systems is a leading provider of engineering-driven technologies for the aquaculture and marine industries. Our mission is to deliver dependable innovation solutions that support ocean health and food production through cutting-edge mechanical and engineered systems. Position Summary As our company continues to grow, we are looking to add a dedicated Production Technician to our team. Reporting to the Production Manager, this role is key in assembling equipment and products according to drawings and work orders. We're seeking someone with a strong work ethic, organizational skills, and accountability who thrives in a collaborative warehouse environment. The Shop Technician will use their knowledge and hands-on experience to complete a variety of tasks efficiently and accurately, contributing to our ongoing success. Responsibilities: • Perform general tasks related to assembly, material handling, clean-up, basic tool and machinery operations, and other elemental activities at manufacturing shops. • Utilize hand and power tools, along with measuring equipment, to assemble products to desired specifications. • Operate equipment such as overhead cranes and forklifts safely and efficiently. • Work collaboratively with team members to meet production schedules and quality standards. • Maintain cleanliness and organization of work area, shop, and yard. • Assist with shipping and receiving duties, including loading and unloading supplies from delivery vehicles, sorting and picking parts, and preparing outgoing shipments. • Conduct periodic inventory counts to ensure accuracy of stock levels. • Perform other duties as required by the Shop Manager.

Qualifications & Experience:

Knowledge, Skills & Abilities: • Ability to follow work orders and instructions accurately. • Excellent communication and interpersonal skills, with the ability to work effectively as part of a team. • Capacity to work independently with minimal supervision. • Technical and mechanical aptitude with a strong commitment to safety. • Demonstrated problem-solving skills and adaptability to changing work environments. Requirements: • Some experience in a related field • Mechanical courses considered an asset • Familiarity with mechanical tools and working in and round engines • Forklift experience considered an asset • Ability to safely lift up to 50lbs consistently and remain on feet for extended periods. • Flexibility to work overtime as needed. • Valid BC Class 5 Driver’s License and steel-toed boots required for the first day of work.
