

***Job posting date: January 19, 2026***

49 North Helicopters is seeking experienced helicopter pilots to join our team for the 2026 summer season and beyond.

Working closely with fellow pilots, the Chief Pilot, and dispatch, successful candidates will support base operations flying the Bell 206 and/or AS350.

With operations now servicing the Williams Lake, BC area, this position offers strong opportunities for growth within the company. Pilots may have the chance to support a wide range of operations across multiple bases, including forestry, ministry work, tourism, logging, fire suppression, passenger transport, heliskiing, and emergency rescue.

This role is ideal for professional, safety focused pilots looking to build long term careers with a growing company and diverse operational environment.

**Responsibilities:**

- Report to the Chief Pilot and Operations Manager
- Support various types of base operations
- Operate the helicopter safely and in full compliance with all regulations set out by Transport Canada and company policies
- Conduct pre-flight inspections, daily flight logbook entries, and post-flight checks in accordance with company procedures
- Perform scheduled and unscheduled flights in support of daily operations
- Excellent verbal and written communication skills

**Minimum requirements:**

- 1,500 hours PIC
- Valid Class 1 Medical
- Canadian Commercial Pilot License – Helicopter
- B206 or AS350 endorsement
- Experience in mountain flying and precision external-load operations

**We offer:**

- Competitive pay (**\$58 - \$70 / hr**) and employee benefits
- In-house maintenance and field support
- Advancement in training and continued development (SAR, Class D, egress, etc.)
- Opportunity for year-round employment

**Contact:**

**Jean-Marc Messmer**

Chief Pilot
