

Broodstock Manager - Freshwater Farms

We are seeking applications for the challenging position of Manager at one of our brood facilities. Maintaining a healthy brood stock is critical to the future success of our farming operations. Reporting to the Breeding and Broodstock Production Manager, the Manager will be responsible for ensuring the consistent and efficient production of excellent quality salmon eggs at a low cost and managing R&D projects while maintaining a safe and environmentally sustainable work environment.

Responsibilities:

- Managing daily operations at the facility including brood production.
- Developing goals and targets and delivering results on time and on budget.
- Delivering solutions and solving operational problems as they arise.
- Meeting or exceeding customer expectations in size, number, quality, and timing of eggs.
- Effectively managing, developing, and coaching employees.
- Initiating and developing solutions for lowering costs and improving product quality.
- Handling other administrative responsibilities.

Qualifications:

- Minimum of 5 years' experience in RAS and Freshwater production.
- Extensive training/experience in fish husbandry.
- Experience in managing complex and rapidly changing operations &/or situations.
- Demonstrated skills & experience in providing leadership, personnel management and problem solving.
- Familiarity with financial planning & management.
- Experience in Project Management.
- Excellent written and oral communication skills.
- Advanced computer skills (e.g. word processing & spreadsheets).
- Highly motivated, positive outlook.

Closing Date: June 29, 2020
