

Quality Control Technician - Surrey Secondary Processing Plant

We are seeking applications for a Quality Control Technician in our Surrey location. Reporting to Quality Management Program Manager, the Quality Control Technician will support quality team in monitoring/verifying the quality management program. You are a passionate individual with a high sense of urgency that can deliver consistent results in an environment that requires multi-tasking.

Primary responsibilities:

- Monitoring and/or verifying that the PCP plan is implemented in the factory.
- Responsible for microbiological, quality and temperature sampling.
- Initiating and documenting corrective actions.
- Monitoring pre-production and production hygiene and communicating concerns or opportunities for improvement to any member of staff as required.
- Responsible for QC pertinent records keeping.
- Reinforcing procedures by monitoring and reporting hygiene condition of factory pre-operation.
- Reinforcing procedures by monitoring and reporting cross contamination issues that may involve personnel practices or equipment.
- Incoming product verification, label inspection, final product verification.
- Metal detection system monitoring.
- Hygiene monitoring and sensory evaluations.

Skills:

- Strong attention to detail, able to be consistently accurate when maintaining records/reports.
- Proficient in Excel, PowerPoint and Word.
- Ability to recognize and resolve non-conformances.
- Strong time management skills with ability to prioritize and multi task.
- Clear and concise verbal and written communication skills.
- Able to work independently while also working as a team to achieve goals.

Closing date: June 21st, 2019

To be considered for this opportunity with a progressive, growth-oriented company, please submit your resume and cover letter to:
