We are searching for a

Red Seal Millwright (Industrial Mechanic) - Saltwater Operations

Marine Harvest Canada is currently seeking an individual to join the team as a full-time, permanent Maintenance Technician within our Saltwater Operations. Reporting to the Marine Maintenance Manager, the incumbent will plan and carry out inspections and maintenance of machinery and equipment on our salmon farms.

Responsibilities:

- Perform inspections, maintenance and repairs on our salmon farming equipment.
- Engage and manage contractors as required. Provide oversight and scheduling.
- Ensure our 'Predictive and Preventive Maintenance' plan is carried out as intended by the Saltwater Maintenance Team.
- Read and interpret drawings, blueprints, electrical code specifications and schematics in order to effectively troubleshoot, maintain and repair equipment.
- Optimize equipment safety and efficiency by participating in continuous improvement projects and completing work orders according to PM schedules.
- Work on other projects as required.
- Be self-starting and able to deal with a wide range of people in all levels of the building/sub-contracting industry.
- Work with other trades and contractors in a flexible team environment to achieve greater efficiencies and productivity.
- Assist the production team in the efficient operation of the equipment.
- Work safely and ensure safety of staff and of outside contractors working on site as per Marine Harvest Canada policy and procedures.

Requirements:

- Hold Red Seal Certification as a Millwright (Industrial Mechanic)– 3rd or 4th year apprentice may be considered.
- Strong troubleshooting skills.
- Experience on compressors, pumps, conveyors, hydraulics and pneumatics systems.
- Experience with automated equipment would be ideal.
- Ability to read mechanical and piping schematics.
- Experience with networking.
- Strong computer skills.
- Be committed and self-motivated, with excellent organizational and communication skills.
- Good working knowledge of current "Boilers, Pressure Vessels and Refrigeration" Regulations.
- A valid driver's license.
- SVOP + boat experience would be considered an asset.

Additional Information:

- This is a camp-based position with an option of 8 days in 6 days out or 4 days in 3 days out shift. Working in our five

production areas around the beautiful Vancouver Island.

Closing Date: 19th December 2018

If you possess the attributes desire and want to make a difference with a progressive, growth-oriented company in a dynamic global industry, please apply submit your resume and cover letter at:
