

Technical Services Foreman

Poseidon Ocean Systems is recruiting for a full-time, permanent Foreman to lead and help build our manufacturing and services team. This position has the potential for growth for the right individual and will appeal to a someone with an aptitude for work in a range of trades.

The candidate must will be willing play to a hands-on role as necessary in our manufacturing facility in Campbell River, BC, as well as in the field. A willingness to learn new skills and techniques to complement existing capabilities is a must. We undertake a variety of work, including:

- Manufacture of pressurized air systems
- Field installation of pressurized hose and piping systems
- Welding and fusion of a range of plastics, including HDPE
- Metal welding, including aluminum and stainless

As Foreman your experience and leadership will be counted on to guide and lead others as well as solve problems and find solutions to all types of challenges in the field and the shop. You must also work closely with engineers and supervisors to provide input and feedback for improving future projects. This role will require travel and shift work as necessary around the west coast of Canada and could expand to national and international projects.

Poseidon is a customer-focused aquaculture support company that delivers equipment and services across the industry. Our people are our strength, and we look for team members that have a passion for what we do and want to be a part of the Poseidon family. We are currently a leading supplier of aquaculture pens, water quality management systems, moorings and custom engineering services in Canada, and we are expanding rapidly. Poseidon is looking to expand our technical services capabilities, and we are seeking an individual capable of taking on this leadership role within the company.

Previous aquaculture and/or trades experience would be valuable, but training will be provided for the right candidate.

Poseidon will offer a competitive compensation package, including extended health benefits.

Skills and Experience

- 5 years experience in a hands-on role either in the trades or in aquaculture
 - Plumber, Pipefitter, Millwright, Mechanic, etc.
- Crew or personnel management experience would be an asset
- Marine experience would be an asset
- Valid driver's license
- Excellent communication skills
- Ability to work with personnel from a wide range of industries and backgrounds
