

The Opportunity – Fisheries Technologist

Pacificus Biological Services is looking for passionate and qualified **Fisheries Technologists** to join our growing team at our Port Hardy and Campbell River offices. There is an opportunity for multiple positions at the Port Hardy office and a limited opportunity for the Campbell River office. These full-time positions involve a mix of office-based reporting and field-based activities that range from local sites to all of coastal BC including Vancouver Island and Haida Gwaii. These positions will take you to some of the most beautiful places in BC and offer a fantastic opportunity for career growth.

What You'll Be Doing

The Fisheries Technologist will provide expertise in the field of fisheries biology and will assist with aquatic and marine habitat assessments, conduct Environmental Monitoring for construction, urban, and environmental emergency works, conduct environmental sampling, perform stream classification, and perform technical writing tasks.

What You'll Bring

- Technical Diploma or University degree in applied biology or related field
- Strong organizational and communication skills
- Physically fit and willing to travel to and work outdoors in remote areas
- The ability to collect detailed and thorough field notes and manage field data
- Able to work both independently and as a team member
- Strong computer skills
- Previous technical writing experience
- Willingness to learn alongside experienced professionals
- Previous field experience in coastal B.C.(1+ yrs) (asset)
- Transport Canada's Small Vessel Operator Proficiency certification (asset)
- Backpack electro-fishing certification (asset)
- OFA Basic Level 1 First Aid with Transportation Endorsement (asset)

Why Choose Pacificus

Pacificus is a well-established and innovative environmental consulting company that offers professional guidance based on scientific expertise. We have an array of registered professional biologists, biologists, technologists, and commercial divers on our team that conduct assessments, provide recommendations, and assist clients through their development and research projects. We have expertise in freshwater and marine coastal ecosystems and provide an excellent environment to grow your career.

What's In It For You

- Opportunities for professional growth
- Training opportunities
- Strong mentorship
- Allowances: cell phone, field gear
- Comprehensive benefit plan
- Annual company retreat
- Salary range \$24 - \$28/hour depending on training and experience

We will provide the opportunity for a young professional to join our group – a workplace where you can expand your skills and be exposed to a diverse array of projects and clients, all while exploring the BC Coast and Vancouver Island.

How to Apply

If you meet the above qualifications and would like to join the Pacificus team, please send your resume, cover letter, and references (Attn: Jennifer Russell) by email to hire@pacificus.ca or through our website at www.pacificus.ca.

Closing Date: June 15, 2026.
