# WE'RE HIRING

Would you like to be part of a team of talented professionals who work together to make a positive difference? Then Ecofish wants to hear from you!

We are currently hiring for a **Front End Web Developer** to work out of our Courtenay, Victoria, or Vancouver Office!

As the ideal candidate, you are a motivated developer who strives to produce fluid user experiences by improving existing platforms and building new ones. You strive to make brilliant ideas become reality, work efficiently as part of an integrated team and have a love for nature and the outdoors!

In return, you will be rewarded by being a part of an exciting and fast-growing company with a rich mix of like-minded individuals who use science to help deliver better environmental outcomes and greater value for our clients.

There will be opportunities for career growth and if that's not enough, we also offer competitive wages (including overtime), quarterly profit sharing, a health and wellness program, and transparent pay and performance reviews.

FRONT END WEB DEVELOPER
COURTENAY, BC

We are looking for an energetic and disciplined Front End Web Developer to join our professional team. Candidates for this position excel in a fast-paced, agile environment where critical thinking and strong problem solving skills are a given. The role will report directly to the Senior Software Developer and will be responsible for:

- Developing high performance, scalable user interfaces while maintaining ease-of-use
- Building reusable components and front-end libraries for future use
- Work collaboratively to support and improve our agile development process
- Tap into your creativity to come up with new ideas to solve interesting problems
- Take accountability of front end advancement and develop growth strategies with our existing platform

Qualifications and Skills:

If you have the following qualifications and are looking for an exciting and challenging opportunity, we would like to hear from you.

- Strong proficiency in JavaScript, including DOM manipulation and the JavaScript object model
- Excellent understanding of asynchronous request handling (AJAX) using REST/SOAP API's

Qualifications and Skills Continued:

- Proficient understanding of web markup with HTML5 CSS3 as well as experience using Bootstrap
- Comfortable developing in server side languages like PHP and Python
- Working knowledge of code versioning tools, such as GIT or SVN
- Passion for best coding practices and a desire to develop new ideas
- Excellent verbal and written communication skills with an ability to collaborate with developers and other team members
- Familiarity with designing creative's and page layout using Adobe Suite would be an asset
- Bachelor's Degree in Computer Science or related field
- 3+ years' web development experience required

Apply Now!

We offer a great place to work, and an engaging culture that is based on innovation, collaboration, integrity, and hard work. Our compensation plan is competitive and there are great opportunities for growth and advancement. Interested applicants can send a resume and cover letter that clearly identifies their experience as well as three references to hr@ecofishresearch.com. Applications will be accepted until October 1st, 2017. Only those applicants that are selected for an interview will be contacted. No phone calls please.

About Ecofish
